Short Bio:

MesaK is an Ecuadorian Black Metal band formed on December 26, 2023. Our musical proposal is inspired by the ancestral worldview of the Shuar people, channeling the figure of the MESAK—a vengeful spirit tied to the Arútam—through a dark, aggressive, and ritualistic sound.

Full Bio:

MesaK is a Black Metal band formed on December 26, 2023, with a musical and conceptual foundation rooted in the diverse ancestral worldview of Ecuador, safeguarded across the cultures of the Coast, the Andes, and the Amazon. Taking its name from the Shuar culture, which uses the term to identify a vengeful spirit, MesaK is deeply connected to the Arútam, an entity of power and protection. According to tradition, when a bearer of the Arútam is murdered, this spirit can form the MESAK, which trans mutates into three manifestations to execute its vengeance:

- Iwichianti, in the form of a demon
- Makanchi, as a venomous snake
- Jungle tree, a symbol of silent death

Through these forms, the MESAK brings death to the murderer, settling the score. Once its objective is fulfilled, the spirit celebrates with its relatives and close ones, closing the cycle of justice and transcendence.

Musically, MesaK channels this ancestral lore into a dark, aggressive, and ritualistic Black Metal proposal. Through sonic violence, dense atmospheres, and raw performances, the band seeks to transmit the essence of the vengeful spirit and its connection to the jungle, death, and transformation.
